CASSON Holds 47th International Conference in BUK

By Nura Garba

Prof. Abdulrashid Garba presenting keynote speech

Counselling Association of Nigeria (CASSON) conducted its 47th International Conference in Bayero University, Kano with the theme: Counselling for National Safety and Security held between 23rd and 25th August, 2023.

The keynote speaker, Professor Abdulrashid Garba who is the Vice Chancellor of Khalifa Isiyaka Rabi'u University Kano, said from counselor's point of view, it was only when everyone felt safe in a learning environment that they tend to repose confidence in the education system. He said putting physical and emotional safety in schools helps in putting students at ease and that is the only time when learning seems to be meaningful.

According to him, the lack of safety and security brought about by incursions on schools and abductions of students were more rampant and carried out more in the North-West, North-East and North-Central regions. He cited the UNIFEC's 2020 report which says 90% of the over 10 million out-of-the school children were from those regions.

Prof Garba, said one of the prominent laws that made provisions on school safety and security is the Child Rights Act, enacted in 2003, citing the Article 15 of the act which says, every child has the right to free, compulsory and universal education and it shall be the duty of the government to provide such education in a safe environment.

The keynote speaker explained that school; and outreach counselling measures can be of some benefit through effective use of strategic intelligence and reconnaissance activities; through effective policy

measures and through effective preventive measures.

Counselling he said should step-up intelligence-led policing for effective use of early warning signals and also ensure that early counselling response mechanisms are properly instituted and situated in the overall diagnosis of safety and security issues generating concerns in the country.

He advocated for the use of key components for counselling to contribute meaningfully in addressing national safety and security concerns, to include that Counselling Practitioners Council must be active and vibrant and that Guidance and Counselling must be active and visible on all national strategic agenda.

He recommended that every state chapter of CASSON should conduct an independent assessment of the extent, scope society, region, width and breadth of their safety and security issues in order to come up with solutions in line with the outcome of their assessments.

In his address, the National President of CASSON, Professor Umar Malami Tambuwal said CASSON as association played a critical role in national safety and security. He called for a collective effort and engagement to address the challenges of the country.

Commissioner for Education in Kano State, Haruna Doguwa requested for effective collaboration between Kano State government and CASSON to address the 1.5 million out of children challenges facing the state. He pledged to assist the CASSON in many respects.

Royal father of the day, the Emir of Kano, Alhaji Aminu Adao Bayero, who was represented by Fagacin Kano, Alhaji Sayyadi Mamman Yola said he was highly delighted with the conference in Kano as it served as an avenue that brought participants from all the states in the federation. He said this would promote unity, oneness, peace and tranquility in the country.

Earlier, the Chairman Kano State Chapter of CASSON, Professor Ahmed Iliyasu welcomed all the icons, fellows, past presidents and current executives of CASSON to Kano, as well as delegates from 36 states including the FCT.

Awards of excellence were presented to the CEO of UYK, Alhaji Usman Yahata Kansila, Hajiya Neemat D. Abdulrahim, the Director ERC, FCT Abuja, Professor Ahmed Iliyasu and Dr Kabiru Bello Dugurawa, who is the LOC Chairman.
