Wema Bank Selects BUK Students for N30M Digital Technology Innovation Competition

By Suleiman Salihu

Four students from Bayero University, Kano (BUK) have been selected to compete in the grand finale of Wema Bank Plc's digital technology innovation competition, scheduled for November 2024 in Lagos. The competition, known as "Hackaholics 5.0," offers a total prize pool of N30 million.

The students were chosen after a three-day pitch event held from September 10th to 13th, 2024, at the New Hall of the Deanery of Student Affairs. The event, part of Wema Bank's initiative to inspire young innovators and entrepreneurs, saw the participation of students competing for cash prizes and networking opportunities.

Wema Bank's Innovation Programme Lead, Mr. Taslim Allis, described Hackaholics as a platform designed to support young entrepreneurs with cash prizes, ranging from N10M to N30M, to help them scale their products. He added that the platform provides networking opportunities with potential investors, founders, and customers, giving the students an avenue to further develop their innovations.

Speaking at the event, Regional Manager of Wema Bank, Mrs. Aisha Musa, encouraged the students to continue developing new and innovative ideas that can compete on a global scale. She reiterated Wema Bank's commitment to supporting students' entrepreneurial efforts and highlighted the bank's partnerships with corporations like Amazon and Meta to help young innovators.

Out of 56 shortlisted participants, four students were selected to represent BUK in the competition. They are Sule Wisdom David, a 400-level Agricultural and Environmental Engineering student, who developed the Cycle X platform;

Mariam Adebimpe Tahir, a 300-level Computer Science student, who created the Unifi platform; Usman Kamaldeen, a 400-level Cyber Security student, who developed the Chiabinchi platform; and Ahmad Ibrahim, a 400-level Mechanical Engineering student, who designed the Digiland platform.

The Dean of Student Affairs, Prof. Shamsuddeen Umar, thanked Wema Bank on behalf of the University for selecting BUK and providing the students with this opportunity. He encouraged the students to seize the moment and benefit from the experience.

BUK students with their winning ticket in a group photograph

The event also featured a raffle draw in which two students, Abdulhamid Ahmad and Muhammad Abduljalil, won new laptops and iPhones, further adding excitement to the program.

ACReSAL Team Visits CDA to Strengthen Partnership

By Nura Garba

On Tuesday, September 17, 2024, the National Project Coordinator of the Agro-Climatic Resilience in Semi-Arid Landscapes (ACReSAL) project, Mr. AbdulHamid Umar, led a delegation on a courtesy visit to the Centre for Dryland Agriculture (CDA) at Bayero University, Kano. The visit aimed to reinforce the partnership between ACReSAL and the CDA in addressing climate and land degradation challenges in Northern Nigeria.

The ACReSAL team was warmly received by CDA Director, Prof. Jibrin Mohammad Jibrin, at the Centre's

CDA and ACReSAL teams in a group photograph

Conference Hall. ACReSAL, a World Bank-financed initiative, focuses on combating land degradation and mitigating the effects of climate change in 19 northern Nigerian states and the Federal Capital Territory (FCT).

Mr. Umar expressed his admiration for the CDA's management, its infrastructure, and the modern facilities

available at the Centre. He noted that the collaboration between ACReSAL and CDA holds significant potential for achieving both institutions' shared objectives.

In his welcome remarks, Prof. Jibrin highlighted CDA's role as a leading research and innovation hub in Africa, having trained numerous students in master's and doctorate programs, as well as thousands through short-term courses. He emphasized the Centre's commitment to exploring further collaborations with ACReSAL.

Prof. Jibrin also gave a brief history of the CDA, explaining its growth from humble beginnings to becoming a recognized Africa Centre of Excellence. He recounted the Centre's early funding from the MacArthur Foundation, which provided an \$800,000 grant, followed by a \$7 million World Bank grant in 2014. The Centre has since earned additional grants and now serves as one of only three host institutions for the Pan-African PASET project, which aims to train 10,000 PhDs in agriculture. The CDA attracts students from 15 African countries and continues to build a "great green wall of knowledge."

Dr. Dahiru Muhammad Hashim, Project Coordinator for Kano ACReSAL, commended the CDA for its longstanding collaboration with Kano ACReSAL, particularly in supporting internship programs. He assured the Centre's involvement in training 500 beneficiaries in the agricultural value chain as part of an upcoming state project. Additionally, CDA will be consulted in the establishment of a compost manure plant in Kano.

The visit concluded with a tour of the CDA's laboratories and its newly built Innovation and Entrepreneurship Hub, showcasing the Centre's cutting-edge research and development facilities.

AI Communication Can Enhance Healthcare, Research in Africa – Prof Hajara Sanda

By Nura Garba

Professor Hajara Umar Sanda, has submitted that effective health communication, coupled with the integration of artificial intelligence in research, can significantly enhance patient care for the sustainability of healthcare systems. AI-driven innovations such as chatbots, visual assistants and sophisticated data analysis tools are transforming the way health information is disseminated and used according to Prof Sanda.

Professor Hajara Sanda, who presented a paper titled: The Role of Artificial Intelligence in Health Communication: Implications for Digital Communications and Governance in Africa at the 11th Annual conference of the Association of Communication Scholars and Professionals of Nigeria (ACSPN) held at the Ikeja Airport Hotel from 4-5 September, 2024 said artificial intelligence (AI) has burgeoned as a seminal force in health communication, proffering innovative resolutions to the enduring challenges beleaguering Africa's healthcare systems.

Professor Hajara Umar Sanda

She stated that the integration of AI into Africa's healthcare systems is not without its challenges, citing (McKinsey, 2024), who said Issues such as the digital divide, infrastructure deficits and the need for capacity building present formidable obstacles to the widespread adoption of AI technologies.

Hajara, who is the first female Professor of Mass Communication in Kano that as we stand on the cusp of an AI revolution in healthcare, it is imperative to harness this technology's transformative power judiciously, ensuring that its benefits reach all corners of Africa and contribute to the continent's long-term health and prosperity.

The paper, which explores the role of AI in health communication within the African context, examining its potential to enhance the efficiency, accuracy and personalization of healthcare delivery, explained that the application of artificial intelligence (AI) in health communication is not uniform across Africa; it varies significantly with each country's unique challenges and technological advancements. However, she pointed out that the integration of AI in health communication across Africa has been met with notable successes in Egypt, South Africa, Nigeria among others, exemplifying the continent's capacity to embrace and implement digital health

innovations.

Prof Hajara Sanda explicitly explained that the journey towards full realization of the the potential of AI is fraught with challenges that must be surmounted to ensure equitable access to its benefits by addressing the infrastructural development, capacity building and digital divide as well as the need for a robust governance frameworks to ensure the ethical use of AI, data protection and equitable access to all.

She concluded that in the vanguard of digital transformation, artificial intelligence (AI) harbours the potential to revolutionize health communication across Africa, charting a course towards a more enlightened, efficient and tailored healthcare paradigm. As African nations progressively embrace the digital revolution, the integration of AI in health communication is poised to burgeon, mandating judicious governance to amplify its merits and attenuate its perils.

Prof Sanda noted that the promise of AI in enhancing health literacy, patient engagement and the delivery of personalized health interventions is immense as it offers a beacon of hope for surmounting the perennial challenges of healthcare delivery in resource-constrained settings.

BUK Staff Model Primary School Holds Scholarship Interviews for Local Community Members

By Suleiman Salihu

The Bayero University, Kano (BUK) Staff Model Primary School conducted scholarship interviews for children from the neighboring communities of Tofa, Gwale, and Kumbotso local government areas. The interviews, held on Monday, September 2, 2024, at the school's Old Campus, were part of the school's initiative to support indigent students by offering scholarships.

a graduate appointed as head. The school has since expanded, with an annex at the New Campus, and now operates under the leadership of two vice principals: Comrade Oni Olusegun (VP Academics) at the Old Campus and Malam Ibrahim Sarki Zubairu (VP Administration) at the New Campus.

Malam Aliyu Musa Adam, the Coordinator of the school's Scholarship Scheme, explained that admissions fall into three categories: staff children, non-staff children, and indigent scholarships. He highlighted that 40 pupils from the three local governments were selected for the scholarship this year, with a fair and transparent interview process that also took gender balance into account.

The interview assessed children's abilities in letter recognition, number identification, reading, and writing. To be eligible for admission, a child must be at least six years old, present a birth certificate, and pass an entrance examination.

Chairman of the school's Governing Board, Dr. Kabiru Bello Dungurawa, expressed gratitude to BUK for extending the indigent scholarship as part of its corporate social responsibility to the surrounding communities. He emphasized that the initiative helps parents feel included and provides their children with greater access to education.

Dr. Dungurawa commended the University's efforts in supporting the local communities and stressed that this partnership would encourage more parents to enroll their children at the school.

A female child taking her indigent scholarship in a group photograph

The Head Teacher, Malam Imam Uba, shared the school's history during the session. Built in 1969 by the Kano Local Education Authority at the request of Bayero College, the school was later taken over by the University in 1974, with

BUK Dress Code Committee Hosts Workshop to Raise Awareness on Dress Code Enforcement

By Suleiman Saliyu

The Dress Code Committee of Bayero University, Kano (BUK), organized a one-day workshop on September 10, 2024, aimed at educating stakeholders about dress code policies and their enforcement. The event, held at the Centre for Economic, Social, and Population Research (CESPOR), focused on the theme "Dress Code Enlightenment and Enforcement."

In his opening address, the Chairman of the University

Dress Code Committee, Dr. Nu'uman Muhammad Habib, emphasized the importance of professional and decent dressing among staff and students. He highlighted that how people dress sends signals to students and reflects the overall reputation of the University. Dr. Habib urged faculty and staff to dress appropriately to set a positive example for students.

Dr. Habib's presentation, "Dress Code: A Global Overview," compared dress code practices at other universities, such as the University of North Texas (UNT) in the United States and Oxford University in the United Kingdom. He explained that UNT holds a weekly "Green Friday," where students are required to wear green, and maintains a strict dress code for certain academic activities. At Oxford, academic staff and students are required to wear robes for lectures and exams.

Prof. Muhammad Babangida Muhammad, in his paper on "Faculty and Departmental Dress Code Committee: Roles and Responsibilities," urged stakeholders to create awareness programs about dress code regulations. He noted that maintaining a balance between character development and learning is essential, and dress code policies play a role in achieving that balance.

Dr. Maryam Liman, Deputy Dean of Student Affairs (female), addressed issues related to female students, stressing the need for proper dressing that aligns with cultural and legal expectations. She highlighted that indecent dressing among female students is often influenced by factors such as social media and peer pressure. She also called for better enforcement of the dress code policy.

In his presentation, Dr. Sabi'u Zakari Yarima of the Department of Sociology emphasized the need for security personnel to enforce dress code policies on campus. He suggested that a clear mechanism be developed to ensure security officers handle dress code violations appropriately.

Faculty of Agric Organizes Orientation for New Students

Faculty of Agriculture, Bayero University, Kano organized an orientation ceremony for its level 100 students admitted into the 2022/2023 academic session. The program took place on Thursday, September 12th, 2024 at the Faculty's Theatre.

The Dean, Faculty of Agriculture, Prof. M. A. Hussaini, said the programme was aimed at educating the new students about the University's general rules and regulations, how to benefit from the health facilities, the need to access academic resources at the University library, laboratories, studio and be conscious of security in the campus among others.

The orientation featured several presentations from relevant administrative departments of the university, who enlightened the fresh students on the aforementioned objectives.

The Faculty's Examinations Officer, M. J. Magaji, spoke on the examinations misconduct, while Dr. I. M. Sani explained the meaning of examinations, probation,

Dean, Faculty of Agriculture addressing the students during orientation

rustication, expulsion, incomplete grading and suspension of studies.

The University's Librarian, Dr Kabiru Dahiru Abbas, who was represented by Mohammad Aminu Deen Yunus explained the use of the library to the students.

A member of the BUK Dress Code Committee, Malama Mero Mohammed, a lecturer at the Department of Food Science and Technology delivered a lecture on the dress code acceptable by the university.

The Director of the University's Security Division, Abdulyakin Ibrahim, who was represented by Mohammad Tasiu Abdullahi, enlightened the freshers on the security opportunities and issues in all the school locations, while Dr. Fatima Mohammad Bako, who represented the Director of Health Services, Dr. Munir Suleiman enlightened the new students on how to access healthcare facilities. He admonished them to maintain proper hygiene in order to be healthy.

The leadership of the Nigerian Association of Agriculture

Students (NAAS), BUK Chapter was introduced to the new students as follows; Abubakar Rabi, Level 500, Agricultural Economics and Extension as the President and Rashidat Sansa, Level 400, Food Science and Technology as the vice president.

The Muslim Students Society of Nigeria (MSSN) BUK branch under the leadership of Musa Suleiman Rabi, the Naqeeb (president) and Nihimatu Abdulrasaq Yusuf, the Naqeebah (vice president) both of whom from the Faculty of Agriculture were also introduced to the level 100 students.

Cynthia Sopuru Umekonkwo, a Level 100 student said that the orientation served its as she learned a lot about the university's code of conduct and ethics.

BUK to Participate at Federation of Africa University Sports Games in Lagos

By Nura Garba

Bayero University, Kano is set to participate at the forthcoming Federation of African University Games (FASU) in Lagos with the athletes readying to don the university's jerseys in the international fiesta.

The Director of Sports, Professor Rabi Mohammed, who spoke with the Bulletin before the departure of the athletes, said the BUK contingent would compete in Badminton,

BUK athletes and their coaches at University of Lagos for FASU Games

Judo, Taekwondo and Tennis and the athletes were in good spirit to represent the University well.

The Director thanked the Vice Chancellor, Professor Sagir Adamu Abbas for sponsoring the athletes and the officials to participate in the 10 day event.

Lagos State University and the University of Lagos are set to co-host the 2024 Federation of Africa University Sports Games, which begins on Friday.

Nigeria is hosting the games for the second time after Abubakar Tafawa Balewa, Bauchi hosted the games in 2004.

The event, which is expected to last for 10 days, will feature 17 sports, including athletics, football, basketball, volleyball, handball, badminton, tennis, table tennis, swimming, taekwondo, judo, karate, cricket, hockey, chess, scrabble, and boxing (demonstration sport).

According to the Vice-Chancellor of the University of Lagos, Professor Folasade T. Ogunsola, Nigeria is ready to make history with a world-class event.

She said: "Nigeria is not just hosting the Games; it is about to make history. These Games will be jointly hosted by two of Nigeria's universities, the University of Lagos and the Lagos State University, a first-time ever co-hosting of the Games since its inception in 1974."

Faculty of Management Sciences Athletes Honored for Performance at 17th Interfaculty Games

By Fausat A. Opayomi

The Faculty of Management Sciences at Bayero University, Kano, has recognized its student athletes for their outstanding performance in the recently concluded 17th Interfaculty Games. The faculty secured third place overall, earning a total of 24 medals.

During a ceremony held on Wednesday, September 18, 2024, in the Conference Room

Dean, FMS, Prof. Muhammad Aminu Isa

of the Dean's office, the Dean of the Faculty, Professor Aminu Isa, expressed his gratitude to the athletes for their hard work and dedication. He emphasized that their success in placing third in such a prestigious competition was a remarkable achievement that should not be overlooked.

Prof. Isa encouraged the faculty's sports coordination team to develop a platform for nurturing young talent, ensuring sustainability in future sporting endeavors. He also highlighted the value

of sports in university life, noting that it plays an essential role in fostering physical and mental well-being while offering a welcome break from academic pressures.

The Dean reaffirmed the faculty's commitment to supporting sporting activities and announced plans to organize a friendly football match between staff and students, as well as an inter-departmental sports competition, aimed at strengthening relationships within the faculty.

In his remarks, Dr. Abubakar Salihu, the Faculty's Sports Coordinator, praised the Dean for his enthusiasm and

support, which he credited as a key factor in the faculty's success during the games.

Dr. Riyaddeen Zubairu Maitama, the Faculty Examination Officer, also commended the athletes for their resilience and dedication. He assured the students that the faculty would address any academic concerns, such as missed Continuous Assessments or attendance that arose due to their participation in the competition.

The event served as both a celebration of the athletes' achievements and a motivational moment to encourage future participation and success in sporting activities.

MADE 2.0: Empowering Students with Digital Skills through Successful Workshop at BUK

The Junior Chamber International Nigeria (JCIN), Bayero University, Kano chapter, recently held its second edition of the **Mastering Digital Excellence (MADE) Workshop**, marking a significant achievement in empowering students with vital digital skills. The event, which ran from **August 23rd to August 29th, 2024**, attracted an enthusiastic group of students eager to enhance their knowledge and skills in today's fast-evolving digital world.

The MADE 2.0 workshop was designed to offer practical, hands-on training across various digital domains, with a specific focus on key areas such as **Content Writing, Graphics Design, Project Management, Cybersecurity, Web Development, and Data Analysis**. Over the course of seven days, both virtual and physical sessions allowed students to dive deep into these fields, providing them with the tools and techniques needed to excel in the digital age.

A Record Number of Participants.

This year's workshop saw an impressive turnout, with **60 students** registering for the training. Despite the rigorous nature of the program, **47 participants** successfully completed the workshop and were awarded certificates of completion during the closing ceremony. This remarkable graduation rate reflects the dedication of the students and the quality of the program delivered by the trainers.

Partnership with NCC

The success of MADE 2.0 was amplified by the strong partnership between JCIN-BUK and the **Nigerian Communications Commission (NCC)**, a key sponsor of the workshop. NCC's involvement not only provided financial and logistical support but also lent industry expertise that added immense value to the workshop experience.

Speech by NCC Zonal Commander

At the closing ceremony, held at **Opolo-BOI Hub, Bayero University Kano**, the **NCC Zonal Commander**, representing the Nigerian Communications Commission, delivered a thought-provoking speech on the importance of digital skills in Nigeria's development.

Titled "**Adoption of Digital Skills and Opportunities in the 21st Century**," the Zonal Commander's speech emphasized how the adoption of digital technologies is reshaping

industries, businesses, and even social interactions. He urged participants to make the most of the skills they had acquired during the workshop, positioning themselves as innovators and leaders in the digital economy.

In his address, he noted, "*Digital skills are no longer optional; they are essential for any individual or nation seeking to thrive in the 21st century. The participants in this workshop*

Participants in a group photograph

are now equipped with the tools they need to navigate this digital transformation, and I encourage you to continue learning and developing in these areas."

A Bright Future Ahead

The **Mastering Digital Excellence (MADE) Workshop** continues to serve as a transformative platform for Bayero University students, bridging the gap between academic learning and practical digital expertise. With two successful editions under its belt, JCIN-BUK is committed to expanding the scope of MADE in future editions, aiming to train even more students and introducing new digital skill tracks such as **Cloud Computing and Advanced Data Science**.

As the university and its partners, including the NCC, continue to work together to build a digitally proficient student body, the future looks bright for Bayero University, Kano, in its contribution to Nigeria's growing digital economy.

7 BUK staff Get ANAN Membership

By Lamara Garba

Seven senior staff from the Bursary and Internal Audit departments of the University were inducted into the prestigious membership of Certified Accountants of Nigeria (ANAN).

The induction ceremony which took place on Thursdays, 29th August, 2024 in Dutse, Jigawa state following the passing of the series of qualified examinations to earn them the membership of the elite's club of Certified Accountants.

They were sponsored by the Vice Chancellor, Professor Sagir Adamu Abbas as part of the efforts to boost the morale of staff through capacity building for improved performance.

Speaking shortly after the induction, the awardees express gratitude to the management for the opportunity, saying this will spur them for more commitment to the service of the university.

"We wish to specifically expressed our profound gratitude to the Vice Chancellor Professor Sagir Adamu Abbas for the support which make it possible to earn the prestigious membership of the Association. it is the desire of every accountant to become a certified ICAN or ANAN and we are grateful for that," said Aminu Yakasai.

Those that got the ANAN certification included, Aminu Abdullahi Yakasai, Uzairu Idris Dambazau, Shitu Musa Isa and Ibrahim Abdullahi Rabiou from the Bursary Department.

Also inducted as certified ANAN members are Abba Ado Abubakar, Musa Alhaji Garba from the Bursar and Hassan Salisu Ahmad from Internal Audit.

It could be recalled that by the provision of laws every accountant must obtain an ANAN or ICAN certification to be able to practice the profession to the top echelon.

DEPARTMENTAL SEMINARS

Department Environmental Management: *PhD series of SEMINAR scheduled*

First Presenter: Nmaduagwu Omodele Celestine
Topic: Environmental and Socioeconomic Impact of Military Operations in Some Part of Northeast Nigeria

(Ph.D. Progress Report I, Seminar)

Chairperson: Prof. L.F Buba

Second Presenter: Babagana Abatcha Umar

Topic: Trends and Techniques of Research on Sustainable Agricultural practices for Reversing Land Degradation and Improving Food System in Drylands

(Ph.D. Review, Seminar I)

Chairperson: Dr. Muhammad Nuraddeen Danjuma

Third Presenter: Farouk Idi Yusuf

Topic: Evaluation of Open Defecation and Sanitation Initiatives in Bauchi Local Government Area, Bauchi State

(Ph.D. Review, Seminar I)

Chairperson: Assoc. Prof. Ahmed Ali Fate

Date: Wednesday 25th September, 2024.

Time: 10.00am prompt Venue: Departmental seminar room

Coordinator: Ass. Prof. Mustapha Zakariya Karkarna mni

Note: Attendance to seminars is compulsory to all MSc I MSc II PhD I and II

Department of Biochemistry: *PG Seminar*

PhD Completion Seminar

Presenter 1: Mahmud Safiyanu (SPS/18/PBC/00004)

Topic: Seasonal Variations in Pattern of ACT and Chloroquine Resistance Genes in some Parts of Kano and Jigawa States, Nigeria.

Degree in View: PhD Biochemistry

Supervisor: Prof. A. A. Imam

Internal: Prof. M. S. Sule

PhD Second Progress Seminar:

Presenter 2: Farida Jazuli Usman (SPS/19/PBC/00001)

Topic: Effect of Different TP53 Mutations (Gain of Function) on the Metabolic Adaptation of Prostate Cancer Cells

Degree in View: PhD Biochemistry

Supervisor: Dr. Binta G. Kurfi

M.Sc. Completion Seminar

Presenter 3: Aliyu Kabiru Inuwa (SPS/19/MBC/00050)

Topic: Evaluating the Effect of Nutrition Counselling and Lifestyle Changes in Management of Type II Diabetes Patients Attending Murtala Muhammad Specialist Hospital Kano.

Degree in View: M.Sc. Public Health Nutrition and Policy

Supervisor: Dr. Aminu Ibrahim

Internal: Dr. Maryam A. Dangambo

Presenter 4: Bilkisu Muktar (SPS/19/MBC/00047)

Topic: Assessment of household Food Insecurity and Nutritional Status of Children Aged 24 – 59 Months in Kaduna South Local Government, Kaduna State, Nigeria.

Degree in View: M.Sc. Public Health Nutrition and Policy.

Supervisor: Prof. A. J. Alhassan

Internal: Dr. A. M. Bello

Presenter 5: Abbas Musa (SPS/20/MBC/00068)

Topic: Effects of Betacyanins-Rich Extract of Beetroot (*Beta vulgaris*) on Acetaminophen – Induced Hepatorenal Toxicity in Rats.

Degree in View: M.Sc. Biochemistry (Toxicology)

Supervisor: Prof. A. M. Wudil

Internal: Prof. M. S. Sule

Chairman: Prof. M. K. Atiku

DATE: Tuesday 24th September, 2024

Time: 10:00 am Prompt

VENUE: PG Seminar Room

Department of Public Law: Monthly Seminar

Presenter: Hafiz A. El-Yakub, Esq

Topic: Jurisprudential Exposition of John Rawls' Concept of Justice as Fairness
